

Fax Archiving for Compliance

ReplixFax for Exchange is integrated with commercial document management systems that provide automated capture, indexing and archiving of inbound/outbound fax documents into the document management system. The archived fax documents can be later searched, retrieved and used to meet any regulatory compliance requirements.

Fax Server Clustering and Virtualization

The ReplixFax system supports high availability through out-of-the-box Fax Server Clustering and Virtual Fax Server through server virtualization. Fax server clustering offers scalability, reliability and performance to serve most demanding business fax communication requirements. Furthermore server virtualization provides efficient server utilization and cost savings.
